

### Identification of the substance

Trade name: Huile essentielle d'immortelle  
 Botanical name: Helichrysum italicum  
 INCI name: HELICHRYSUM ITALICUM FLOWER OIL

### Composition / Component information

INCI name: HELICHRYSUM ITALICUM FLOWER OIL  
 N° CAS : 90045-56-0  
 EINECS : 289-918-2

Chemical description: Essential oil obtained by direct or indirect steam distillation of aromatic plants.

Substance / Concentration:

Main constituents: Mixture of substances whose concentration may vary according to production

(\*)Allergen:

Composant	%	N ° CAS	EINECS	Classification according to Directive EC 1272/2008 and IFRA/IOFI LM 12
Acetate de néryle	29,84%	141-12-8	270-162-7	H315, H317, H412
